Trade up to a GEO!

If you're the proud (or not so proud) owner of either an Eclipse EGO5, EGO6 or SL66 then we have something quite special to offer you.

Not only are we reducing the MAP price of the Eclipse GEO (and EGO9) from the first of August to \$1095 + Tax, we are also going to give you the opportunity to trade in your old EGO5, EGO6 or SL66 for \$250 US Dollars against a brand new Eclipse GEO at participating stores.

As time goes on the 2005 and 2006 Egos are becoming more and more obsolete. The markers are out of warranty and servicing to keep them running isn't going to be cheap. So the lovely people at Planet Eclipse along with participating stores are now offering, for a limited time only, a trade in value of \$250 for your old EGO5, EGO6 or SL66 against a brand new GEO.... That's it. Easy.... No strings! Just a great deal for you to get your old EGO from under your bed or the bottom of your bag and trade up to the amazing Eclipse GEO with GR-2 Kit already installed.

The markers that are to be traded in need to be a complete unit with barrel, purge, circuit board etc in place. The parts do NOT need to be original parts but they all need to be there. We don't really mind what condition the marker is in (to a certain degree), it doesn't need to be working, it doesn't need to be in the original box, it just needs to have all of the parts included.. Simple !!

So you want to trade up, what do you do now??

If you live in the USA you have two options....

1.....You can visit, call or e-mail your local store and see if they are participating in this deal if they are visit them, take in your old EGO5, EGO6 or SL66 they will give you a store credit for \$250 to be used against the purchase of an Eclipse GEO. You pay the store the difference and walk away with the Eclipse GEO and get ready to own the field.

2..... Or you can package up your old EGO5, EGO6 or SL66 and send it into the Planet Eclipse office. You need to make sure that you include a letter with your full name and address, phone number, e-mail address (if you have one). You need to state on the letter that you want to trade up your old marker. When the marker arrives in the office, someone will contact you for payment and colour choice, then your NEW GEO will be on its way to you... And we will even pay the shipping (retail sales only).
Above is for the USA ONLY!
